“Nothing without Joy!” Loris Malaguzzi

*By listening, our children feel appreciated for their contributions,
—big and small. We value their ideas.*

Our Purpose
Imagine the power of your child. Imagine the unlimited capacity to see the world with joy and wonder. To greet each day as an inspiring new adventure. At Creative Children's Center, school is all about possibilities. Instead of “how best to teach,” our approach proposes “how best to learn.” We're grounded in the belief that all children are competent, gifted learners. The idea is simple—trust in their born abilities, provide resources and adult support, and children thrive. We're proud to offer an exceptional school with a stimulating environment, great resources, loving teachers and parents dedicated to honoring a child's right to experience such a school.

Our Philosophy
Our educational doctrine is grounded in constructivism. As a constructivist school we feel that children build knowledge by actively collaborating in the learning process. School becomes a place of relationships. Relationships with children, teachers and parents. Relationships created with the environment, the ideas and the materials, the school and the community. It is through these interactions that children construct understanding, self-esteem and appreciation of the world. Our fundamentals have been influenced by our studies and work with many constructivist educators: Jean Piaget, Christine Chaillé, Loris Malaguzzi, Amelia Gambetti, and our collaborations with the Schools in Reggio Emilia, Italy.

Our Past
Our Director, Lucy Chaillé, and a group of dedicated parents founded Creative Children's Center in 1990. Since that time thousands of students have participated in our programs. Our facility has three interactive classrooms and a large playground. We are members of the Parent Child Preschools of Oregon.

Our Claim to Fame
CCC was proud to have been featured on PBS' National **NewsHour** with Jim Lehrer. The title story “Brain Power” emphasized that children learn through concrete experiences. Our preschool program was shown as an example of excellence in early education.

Creative Children's Center Creativity Camps

Find the magic in science, the imagination in art, and the joy in summer learning! With our interdisciplinary approach, CCC Summer camps incorporate the arts, sciences, and literature into every session making them both fun and educational.

Camp Information

Dates—June 28 -August 5

Early Learners—Ages 3 to K

Elementary—Grades 1-5

Time and Tuition

Monday-Thursday

Week—1, 2, 3, 4

9:00 to 1:00 - \$170

Week—5 and 6

9:00 to 3:00 - \$245

Lunch- Pack a big *healthy* lunch! Daily snacks will be provided.

10% discount for siblings registered for the same session.

Magical Musical Me! Ages 3-K

Week 1: June 28 to July 1

Join the band and kick up your heels as we explore the world of music and dance. From rock & roll to classical, kids will move and groove to their favorite sounds! We will explore a variety of instruments and create some to take home! Let your child's inner musician come to life!

Super Duper Science! Ages 3-K

"Einstein here we come!"

Week 2: July 5 to 8

Crazy chemistry, mysterious biology, and physics in action run wild in this week of madcap science fun! Experiments abound as we explore the sciences by; posing questions, building hypotheses, and theorizing the "how, what and why?" We will make goops and goos, launch an egg craft, blast off a rocket, and grow some furry biological friends! This super week introduces the scientific process in active and engaging ways!

Science Detectives! Grd 1-5

Week 2: July 5 to 8

Put on your lab coat and grab your magnifying glass! Let's solve some mysteries with our keen observations and masterful thinking! We will match our wits with each other as we discover science through the process of inquiry and investigation. Chemistry, biology, and physics will be all be explored!

Art by Heart Ages 3-K

Camp and Show

Week 3: July 12 to 15

Calling all *creative kids*! Get out the paint and clay; wire and wood; fiber and metal, as we find artist within! Grab a brush and a palette as we combine art elements with technique and imagination. From sculpture to portraits, your masterpieces will appear!

Young Artist Studio Grd 1-5

Week 3: July 12 to 15

To paint, to sculpt, to build and mold...is to find ourselves in a work of art. CCC's ele-

mentary art week is an amazing exploration of two and three dimensional design. Participants connect with a wide variety of mediums and materials as they create a gallery of pieces for the show!

CCC's *Art by Heart Show* will be on Friday, 7/16, from 6-7 pm.

Summer Splash Ages 3-K & Grd.1-5

Week 4: July 19 to 22

Jump into summer with a splash of wet and wild fun! A slip-n-sliding good time will be had by all in this week of water mania. From splashy arts and crafts, to wet and wild science, H2O becomes a tool of expressive fun and thought! You'll dash with your friends into the pool, slip-n-slide down the lawn, and race through the sprinkler! Experiments & messy art abound as we make drippy icky slime, spray paint t-shirts, and play games with bubbles and balloons! Each day we will celebrate the great outdoors!

Happy, Healthy, Me!

Ages 3-K & Grd 1-5

Nutrition, cooking, sports games, and safety!

Week 5: July 25 to 29

Caring for ourselves is good to start young! As children's bodies grow so do their minds. This adventurous full day camp of health and fitness includes; gardening, cooking, exercise, and safety skills. Each morning participants will spend some time exercising, playing physical games, planting in the garden, and cooking lunch. In the afternoon, we will

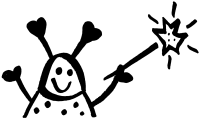

study safety skills; including fire safety, water, biking, and personal safety, learning how to keep ourselves "too smart for danger". Art and stories will finish off our day of fun! Students will share what they learned at the end of the week in a "Happy Healthy Me!" presentation.

Young Naturalists

Ages 3-K & Grd.1-5

Week 6: August 1 - 5

Things that fly, grow, creep, and crawl; what can we find in CCC's nature playground? Ecoliteracy is the new buzz word, and this camp takes it all in! Ever wonder how it works together? A puzzle of plants and creatures create a world of super science that intrigues and inspires all. Gardening, worm bins, seeds, flowers, bugs, bats, birds, and butterflies will all be invited to join the fun! Naturalists to the rescue as we learn to care and connect with the great outdoors!

Fabulous Friday Fieldtrips

Add on an outing to the week of camp to extend and enrich the experience. Each Friday's location is specially selected to coincide with the theme of the camp.

Drop off at the site: 9:30

Pick-up: 1:00 pm

Cost: \$35

July 9-OMSI

July 16-No Field Trip (Art Show)

July 23-Wilson Pool

July 30-Fire station and Park

Aug 6-Tyron Creek Park
